Cables from Berlin reported the prospective shipment of \$4,800,000 Australian gold to the German capital. The day's gist of general news was discouraging for the most part, with further consultations and the Dakotas gave additional stimulus to bullish sentiment, the official forecast being for rain today in those three important spring wheat states. As trading progressed, reports began to circulate in the pit, which told of a revival in export business both for wheat and flour. Sales of cash wheat here was reported at 150,000 bushels, the bulk of which was for export, and Kansas City reported an equal amount, most of which was for shipment abroad.
